Memo to File:

RE: W. K. Enterprise
Bandit Mine
DOE/037/024
San Juan County, Utah

Tom Tetting, Tom Portle, Sue Linner and Pam Grubaugh-Littig briefly stopped at the reclaimed minesite on April 6, 1983. Regrading was complete and included the access road. Water bars were in place and an excellent job done. Reseeding was not evident. The waste rock which had encroached upon the ephemeral drainage and had been carefully regraded into the surrounding hillside was massively eroded by a fairly recent storm. The natural drainage had reestablished itself.
